

Keep in mind that parentheses are there to include the entire process and not to be added in.  
Blank lines indicate a separation of input after hitting Enter/Return

Staging, Committing and Pushing to GitHub:

In terminal:

```
(  
cd <whatever your directory is>/  
  
git add <file path and name within that directory>  
  
git commit -m "<file path and name>"  
  
git push  
)
```
